

Core series

The X5 Air Series 2-key switch panel is a wireless touch interface designed for flexible lighting control, supporting circuit control, dimming and scene activation in professional installations. Rated voltage: 220V~50Hz.Number of relays: 1 Number of keys: 2 keys Rated load: resistive ≤ 800W/circuit, capacitive/inductive ≤ 300W/circuit Communication protocol: Matter Product functions: Radar induction/Micro button/Relay separation/Switching scene composite/Zero crossing detection

Item code	**X5-ZNKG01G22GY**
Product type	**Smart**
Category	**Drivers & Components**
Family	**Smart switches**
Subfamily	**Core series**
