

## LED High Bay Light

### Installation Instructions

Physical Dimensions(Unit: mm/inch)  
100W/150W/200W

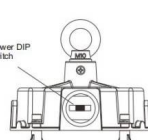

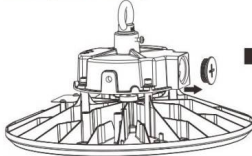

Product Specifications	100W	150W	200W
Input Voltage	100-277VAC / 120-277VAC / 100-240VAC / 220-240VAC (Subject to the input voltage on nameplate)		
Power Frequency	50 / 60 Hz		
Outlook Dimensions	Ø290x167mm(Ø11.41"x6.57")		
Luminaire Net Weight(±6%)	1.9kg(4.19Lbs)		
Working Temperature	-30°C to +50°C(-22°F to +122°F)		-30°C to +45°C (-22°F to +113°F)
Storing Temperature	-40°C to +70°C(-40°F to +158°F)		

\* Please subject to actual product for accurate weight.

1

### Power Selectable

Caution:  
Please power off the luminaire before adjusting the DIP switch.  
Please do not use metal tool to adjust the DIP switch.  
Please adjust the switch gently.

### Power Selectable

A	B	C
---	---	---

100%	80%	60%
A(100%)	B(80%)	C(60%)
100W	80W	60W
150W	120W	90W
200W	160W	120W

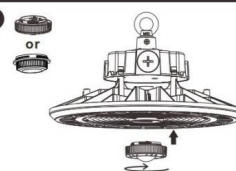

\* The tolerance for power is ±10%

### Sensor Mount

1

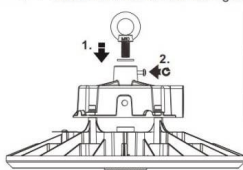

2

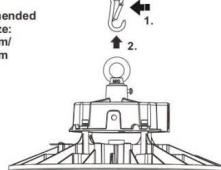

### Suspension Mount

1. ⚠ Make sure the screws are tightened

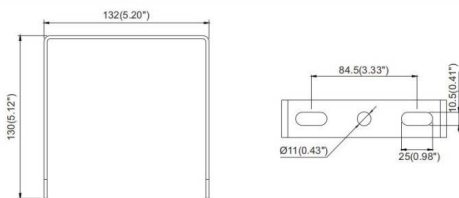

2. ⚠

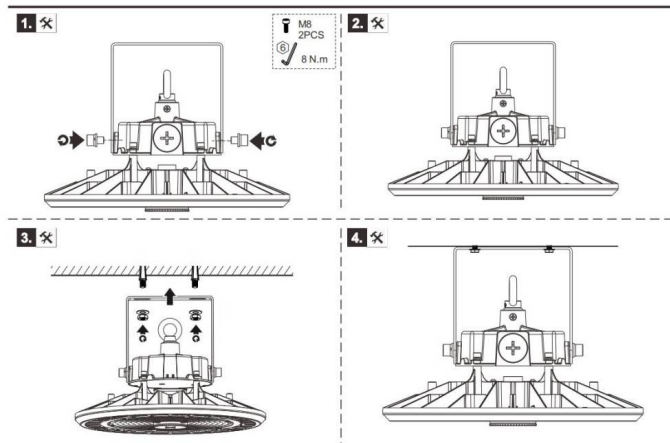

Recommended  
Hook Size:  
Ø6x60mm/  
Ø8x80mm

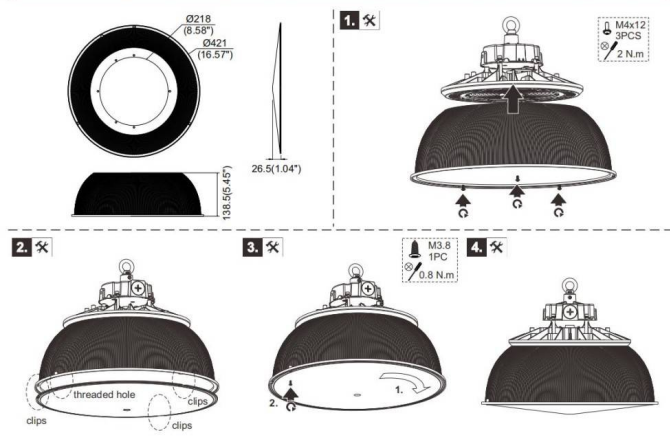

### Ceiling Mount(Unit: mm/inch)

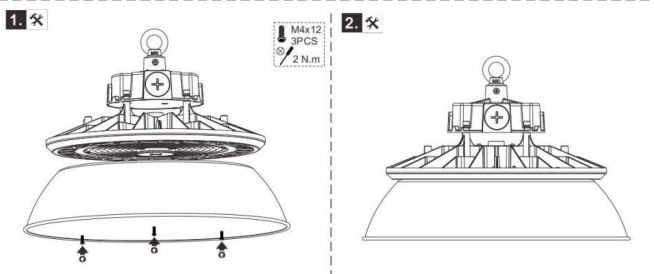

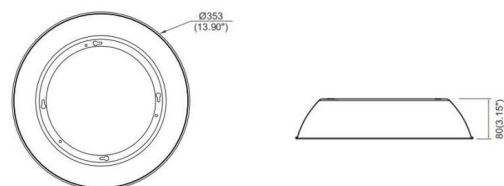

2

## PC Reflectors(Unit: mm/inch)

### Aluminum Reflectors(Unit: mm/inch)

AC cords

<b>L</b>	brown		black
<b>N</b>	blue		white
<b>⊕</b>	yellow/green		green

DIM cords

Note: color for dim cords suit the cable label on luminaire

**Warning!** Do not wire dim cord to high voltage, or dim function will fail.

### Reminder

**Reminder**  
We appreciate your purchase!

Please read the entire instruction manual before installation and keep it for future reference.

1. Please do not modify or disassemble the luminaire or replace accessories without conforming with the supplier first.
2. Please authorize only qualified personnel to install the lamp and ensure they follow the instruction manual. Any improper installation might cause falling, electric shock, fire, or other injury, damage or hazard.
3. Please do not touch the lamp before installation or any maintenance of the lamp. Do not touch the power supply when the lamp is operating.
4. If the luminaire begins to smoke or emit odors, please disconnect power since fire or electric shock may occur. And ask qualified personnel to inspect and maintain the luminaire.
5. If the external flexible cable or cord of this luminaire is damaged, it shall be exclusively replaced by the manufacturer or his service agent or a similar qualified person in order to avoid a hazard.
6. Any light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person.
7. We suggest you order a separate surge protection device in distribution box to extend luminaire lifespan.

## Applications

- Applications:** The product is designed for factories, workshops, warehouses and similar applications. For other special applications, please consult your salesperson to confirm.
- 1. The product is designed for accumulation on PVC resin, you should light the emitting end and heat dissipation, it will change lighting distribution, and cause high heat inside to affect LED chips performance. For such environments, we need the luminare regulate to ensure longer lifespan. Or you need to use product with glass cover and better heat performance instead.
  - 2. The suggested mounting height of the luminare is 3-15m.
  - 3. If you want add sensor on the luminare, please mount samples in your project before mounting batch volume directly. Here are some tips to choose the right sensor: microwave sensor should keep away from large areas of metal and glass reflectors (separation distance at least 1m) to avoid luminare abnormal working. PIR sensor should keep away from high temperatures environments to avoid luminare no response, please contact your salesperson for detailed information.
