Screw		X4

②

First select the place to be installed,place the ceiling bracket in the mounting position, and mark it with a pen core

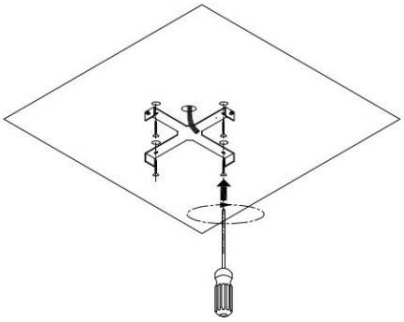

Then drill holes for screw A of the corresponding size.If you need to hide the outlet, An AC line control needs to be reserved in the middle of the ceiling

③

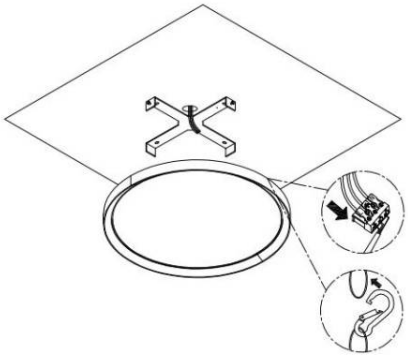

Insert screw A into the hole

④

Take out 4 screws B and use a screwdriver to fix the ceiling bracket to the ceiling.

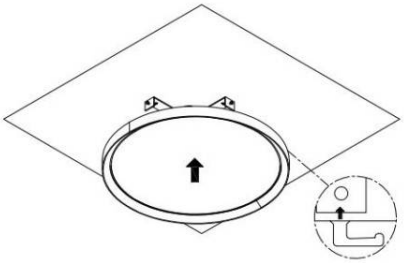

⑤

1.Connect the ceiling AC wire to the plate terminal, wiring method: (L-live wire) (N-neutral wire) (-ground wire)

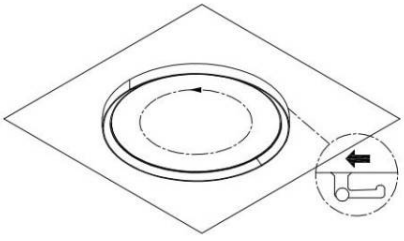

2.Hang up the anti-fall rope

⑥

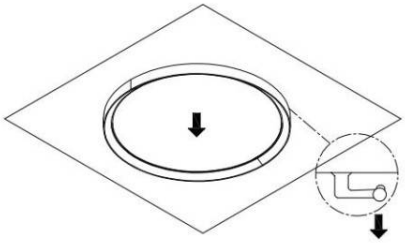

Lift the frame of the lamp and align the four notches with the four installation pillars of the ceiling bracket.

⑦

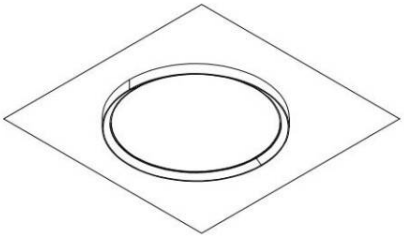

Rotate the frame of the lamp clockwise so that it locks into place with the ceiling bracket.

⑧

Make sure that the frame of the lamp is securely attached to the ceiling bracket.

⑨

After installation, turn on the power and light up the lamps.
