| Screw |  | X4 |

## ②

First select the place to be installed,place the ceiling bracket in the mounting position, and mark it with a pen core

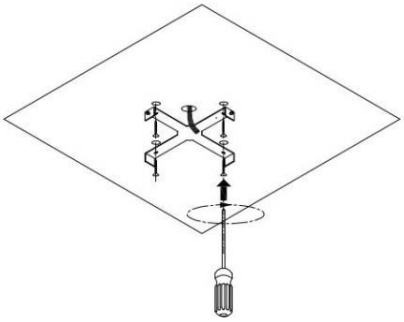

Then drill holes for screw A of the corresponding size.If you need to hide the outlet, An AC line control needs to be reserved in the middle of the ceiling

## ③

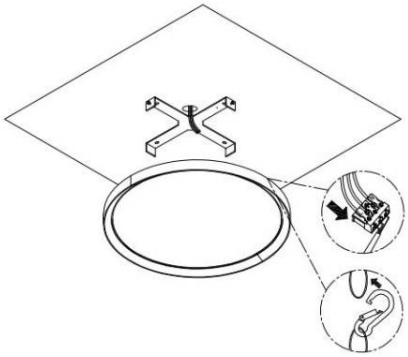

Insert screw A into the hole

## ④

Take out 4 screws B and use a screwdriver to fix the ceiling bracket to the ceiling.

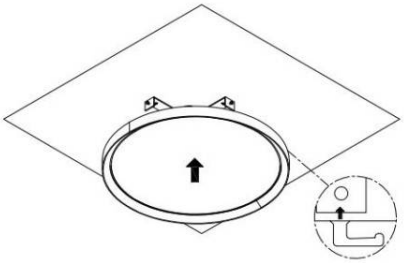

## ⑤

1.Connect the ceiling AC wire to the plate terminal, wiring method: (L-live wire) (N-neutral wire) ( -ground wire)

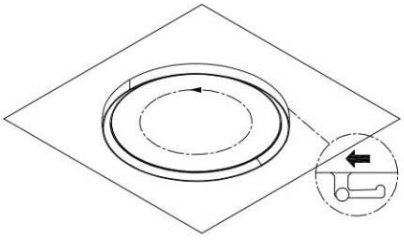

2.Hang up the anti-fall rope

## ⑥

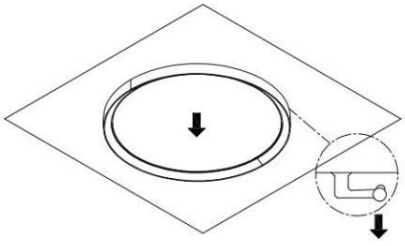

Lift the frame of the lamp and align the four notches with the four installation pillars of the ceiling bracket.

## ⑦

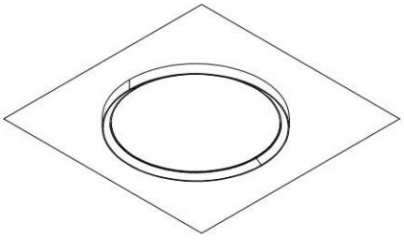

Rotate the frame of the lamp clockwise so that it locks into place with the ceiling bracket.

## ⑧

Make sure that the frame of the lamp is securely attached to the ceiling bracket.

## ⑨

After installation, turn on the power and light up the lamps.
